6.hafta - Kullanılabilirlik

PROF. DR. KÜRŞAT ÇAĞILTAY
ODTÜ

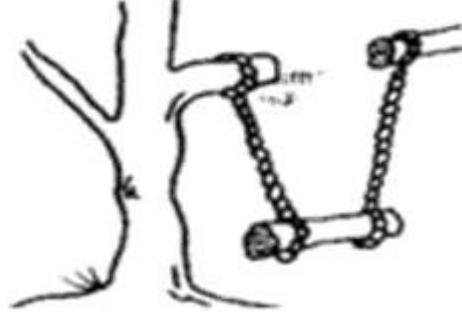

İBE'nin Temel Bileşenleri

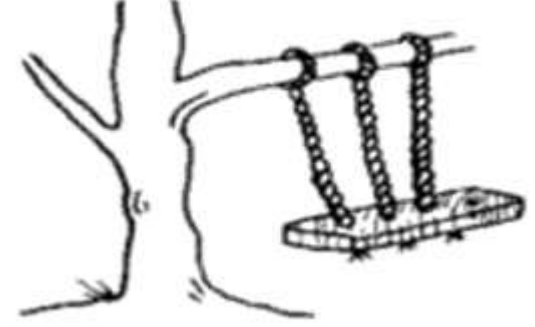

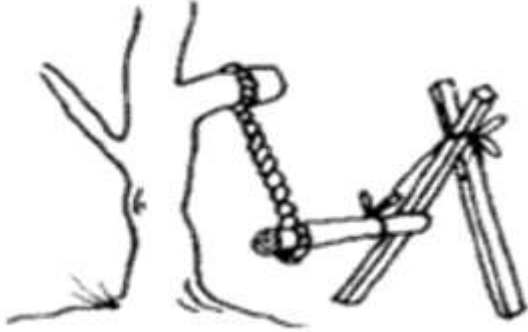

Kullanıcının isteęi

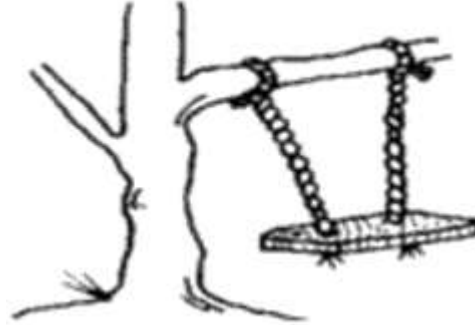

Analistin grdę

Sistem analistinin tasarımı

Programcının kodlaması

Kullanıcının gerek isteęi

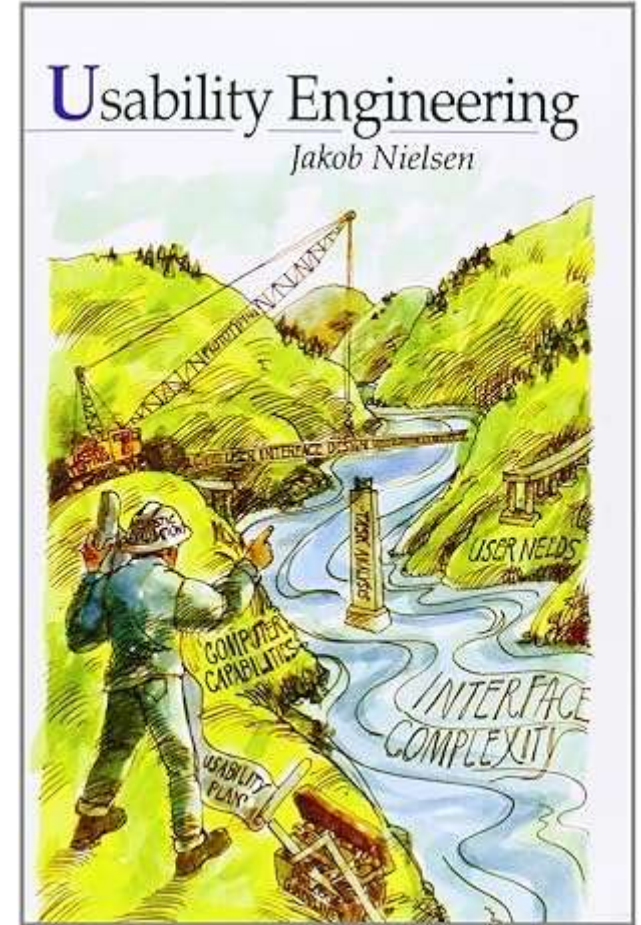

Gerekte nasıl alıřtıęı

Kullanılabilirlik Nedir?

- Anlamsal tanımlar
 - ‘kullanıcı dostu’?
 - ‘kullanım kolaylığı’?
 - ‘öğrenme kolaylığı’?
 - ‘şeffaflık’
 - ‘sezgisel kullanım’

Kullanılabilirlik Nedir?

- Kullanılabilirliği arayüz özellikleriyle tanımlayabilir miyiz?
 - Pencereleler, ikonlar, menu, imleç
 - Grafik kullanıcı arayüzleri kullanışlı mı?
 - Kullanıcı arayüzü stil rehberi tavsiyeleri tabanlı mı?
 - Tasarım prensiplerine uygun mu?

Guidelines

We have added the Research-Based Web Design and Usability Guidelines to a

We will update the database to cover current trends and topics in digital commu

- Responsive design
- Mobile strategy
- Applications (apps)
- Social media

Human Interface Guidelines

Get in-depth information and UI resources for designing great apps that integrate seamlessly with Apple platforms.

KAMİS Rehberi

İnternet Sitelerinde Kullanılabilirlik (pdf)

Bu bölümde, kullanılabilirlik kavramı ve kullanılabilirliğin kamu internet siteleri için öneminden bahsedilmektedir.

Genel Özellikler

Bu bölümde, erişilebilirlik kavramı ve erişilebilirliğin kamu internet siteleri için öneminden bahsedilmektedir.

Görsel Tasarım ve Kullanıcı Arayüzü Özellikleri (pdf)

Bu bölümde, internet sitelerinin kullanıcı arayüzü özelliklerine yönelik temel kullanılabilirlik ilkelerinden bahsedilmektedir.

Erişilebilirlik

Bu bölümde, erişilebilirlik kavramı ve erişilebilirliğin kamu internet siteleri için öneminden bahsedilmektedir.

Windows UX Design Principles

Reduce concepts to increase confidence

- Have you introduced a new concept? Why? Is it necessary?
- Can you get rid of unneeded concepts?
- Are you making meaningful distinctions?
- Does the UX continue the same concept?

Small things matter, good and bad

- What are the important "small things" seen often or by many?

Kullanılabilirlik: Etkililik

- Kullanıcıların uygulamayı kullanarak yapması beklenen işleri ne kadar başarabildiğini ifade eder
- Kullanıcıların amaçlarına ulaşabilme boyutudur.
- Etkililik doğruluk ve/veya tamamlanmayı ölçer. Örneğin:

Amaç bir web sitesindeki bilgiye erişmekse,
Etkililik = kullanıcının doğru veriyi bulma başarısıdır.

Yeniden tasarlanmış bir web sitesinin kullanım verimliliği

- Görevi tamamlamak için geçen zaman:
 - görevler arası, kullanıcılar arası veya bir kalite testi skoruna göre karşılaştırılır.
- Adım sayısı
- İdeal yoldan sapma sayısı

Web Server erişim logları (access.log)

access.log format

A sample access log record written in the Common Log Format will look like this:

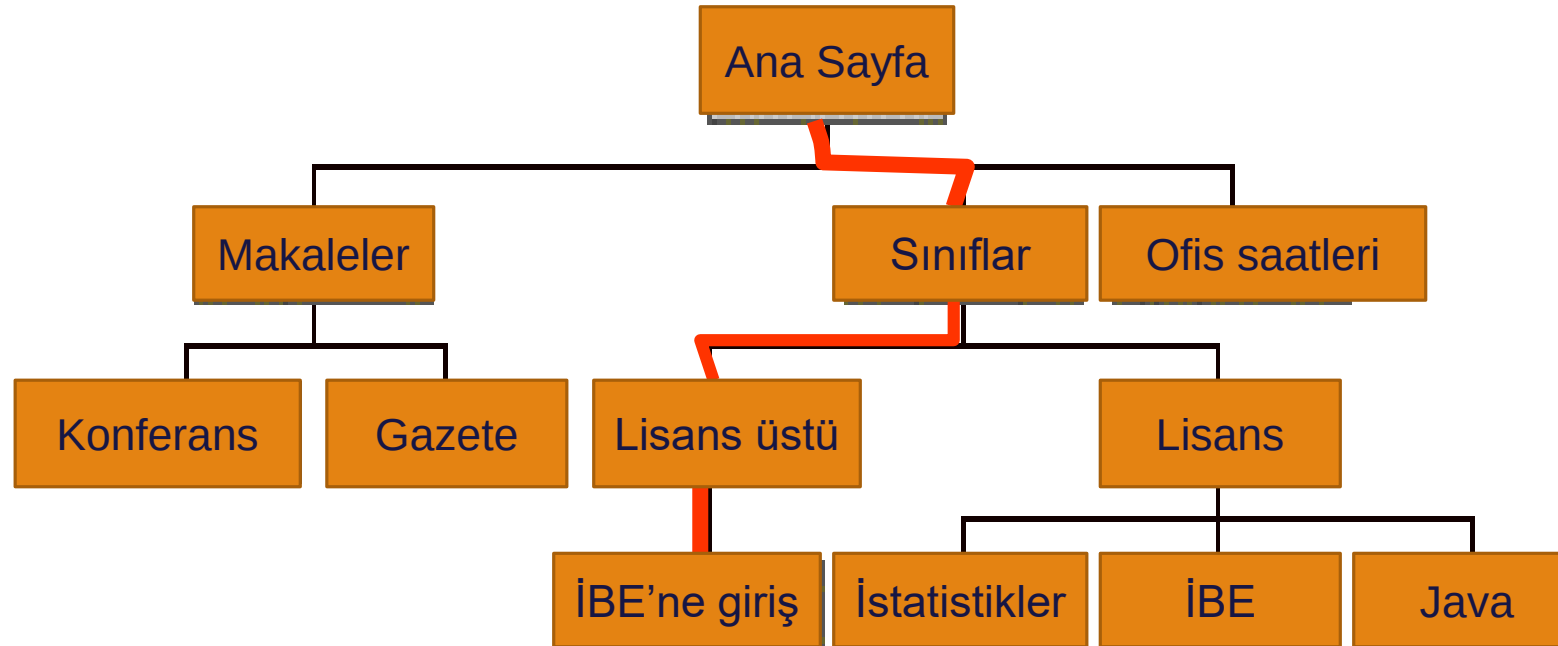

```
127.0.0.1 - Scott [10/Dec/2019:13:55:36 -0700] "GET /server-status HTTP/1.1" 200 2326
```

The fields represent:

- **127.0.0.1**: IP address of the client that made the request
- **Hyphen**: The identity of the client. This field is often returned as a hyphen, and [Apache's HTTP server documentation](#) recommends that this particular field not be relied upon except in the case of a controlled internal network.
- **Scott**: User ID of the requestor
- **[10/Dec/2019:13:55:36 -0700]**: Date and time of the request
- **"GET /server-status HTTP/1.1"**: Request type and resource being requested
- **200**: HTTP status code
- **2326**: Size of the object returned to the client.

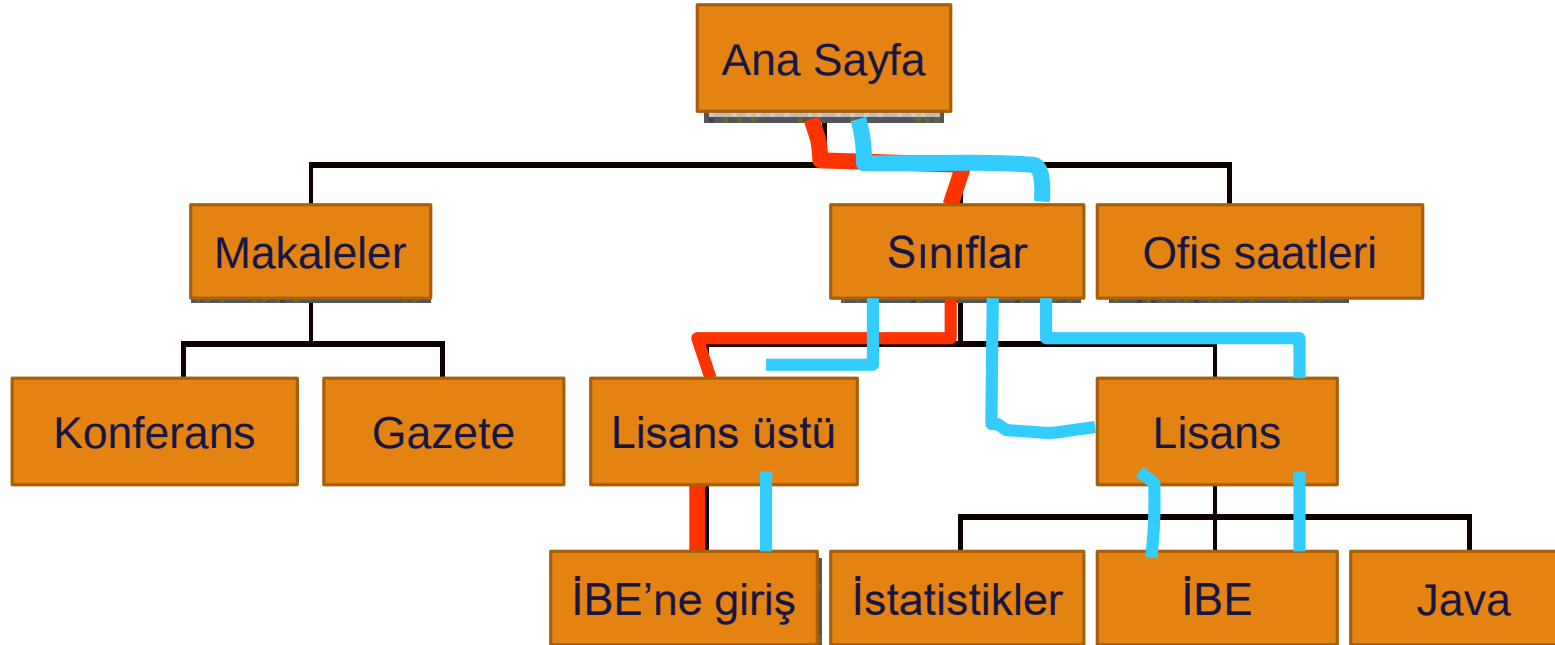

Yol Analizinde Verimlilik

İdeal yol: 3 adım

Yol Analizinde Verimlilik

Mevcut ve İdeal kullanıcı karşılaştırması - 7:3 adım

Görev analizi

- Herhangi bir sistemi kullanırken kullanıcıların yerine getirmeleri beklenen davranışların
 - İnsan, teknoloji ve çevresel faktörlerle beraber ele alınarak
 - gözlemlenmesi, tanımlanması ve alt görevi bileşenlerine ayrılması

Sürecidir.

Görev analizi soruları

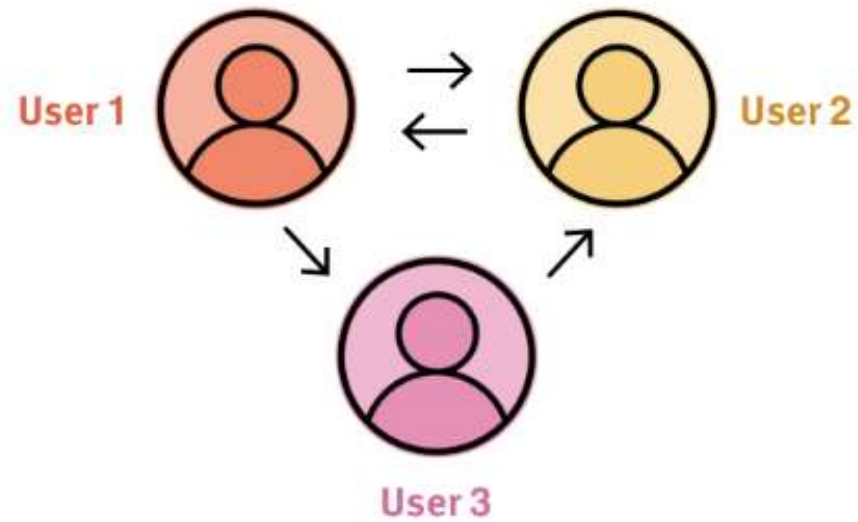

- Kullanıcı
 - Verilen görevden ne anlamaktadır?
 - Hangi kararları verir?
 - Ne bilmelidir?
 - Nasıl yardım alır?
 - Yanlışlarını nasıl telafi eder?
 - Hangi fiziksel hareketleri gerçekleştirmelidir?

Görev 8: Annenizin kredi kartı ile borcunu ödemek istiyorsunuz. İnternet Şubesindeki vadesiz hesabınız üzerinden annenizin kredi kartı borcunun 1 TL'sini kart no girerek ödeyiniz.

Görev 9: Sistemden çıkış yapınız.

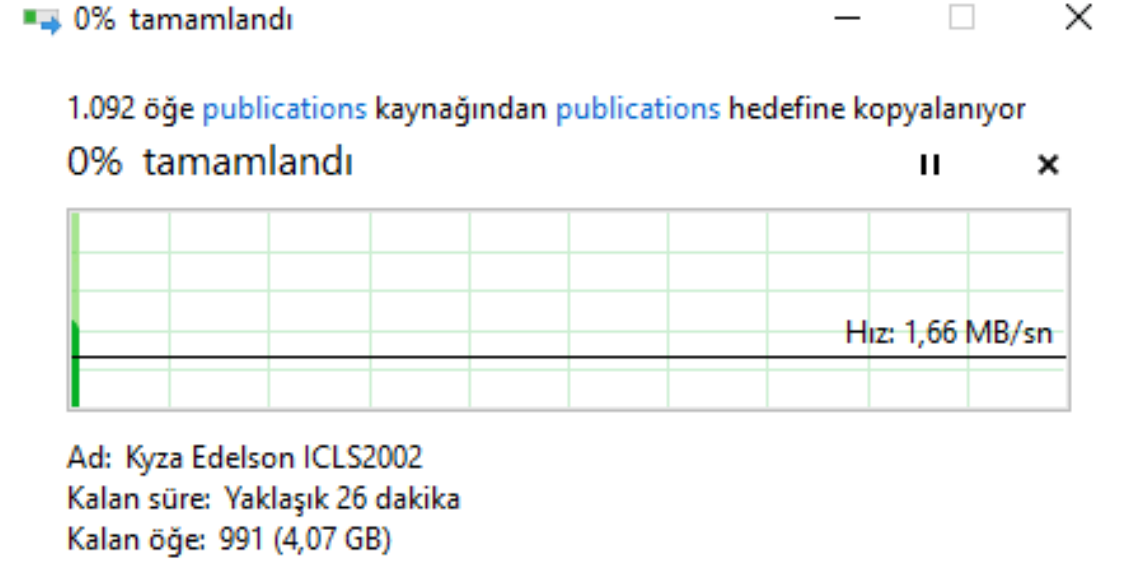

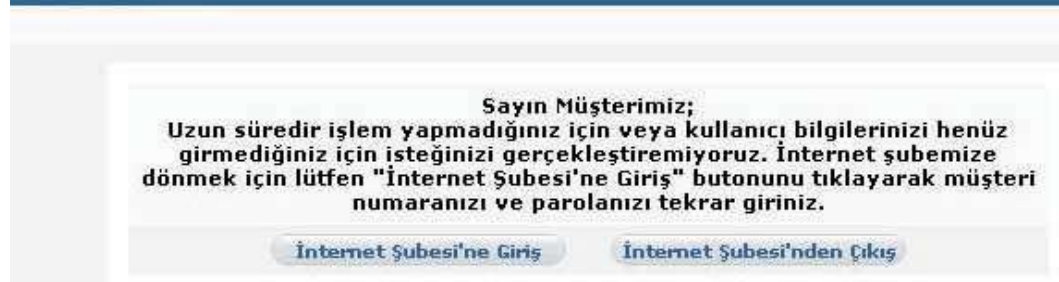

Nielsen'in Sezgiselleri (Nielsen, 2010)

1. Sistem durumunun görünürlüğü
2. Sistem ile gerçek dünyanın eşleşmesi
3. Kullanıcı kontrolü ve özgürlük
4. Tutarlılık ve standartlar
5. Hataları önleme
6. Hatırlamak yerine tanıma (ya da Hafıza yükünün en aza indirilmesi)
7. Esneklik ve kullanım verimliliği
8. Estetik ve sade tasarım
9. Hatadan kurtulma
10. Yardım ve dokümantasyon

Sistem durumunun görünürlüğü

- Sistem, kullanıcıları o anki durumla ilgili olarak, neler olduğu konusunda, sürekli bir şekilde ve uygun dönütler eşliğinde bilgilendirmelidir

Sistem ile gerek dnyanın eřleşmesi

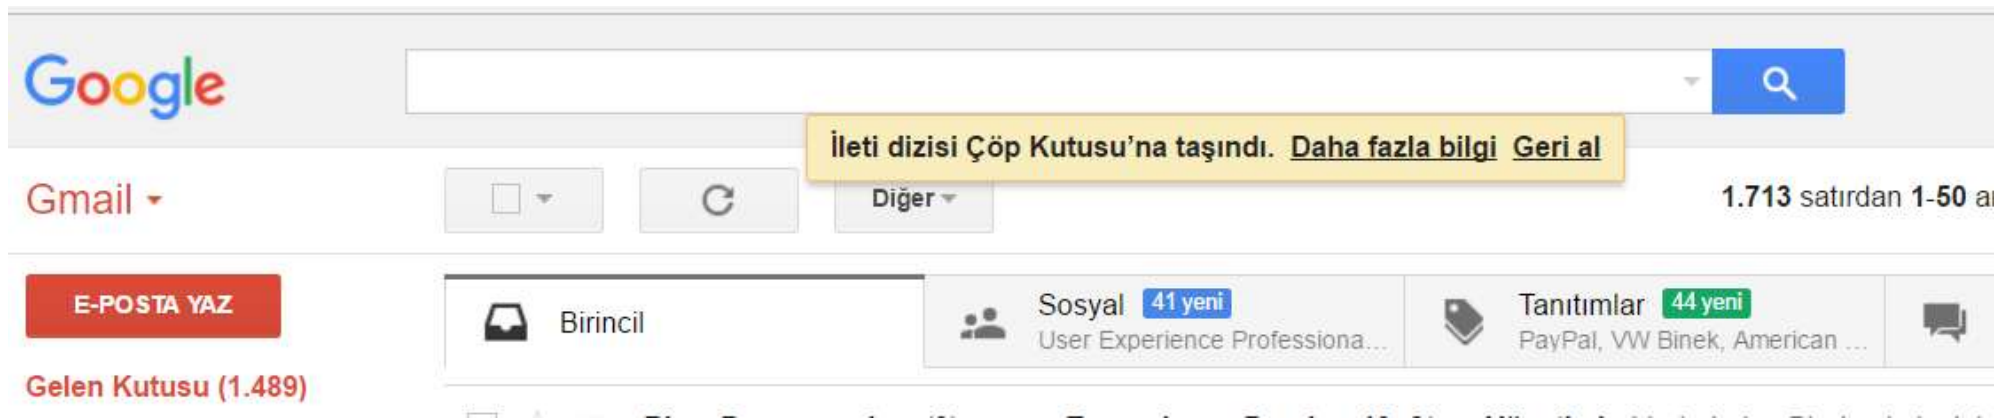

- Sistem, kullanıcıların dilinde konuşmalı, terimler, kelimeler ve kavramlar kullanıcıya tanıdık olmalıdır. Bilgilendirmelerin kullanıcı tarafından doğal ve mantıksal bir şekilde görünmesi sağlanmalıdır

- Hangi servise insanların daha fazla ihtiyacı var?

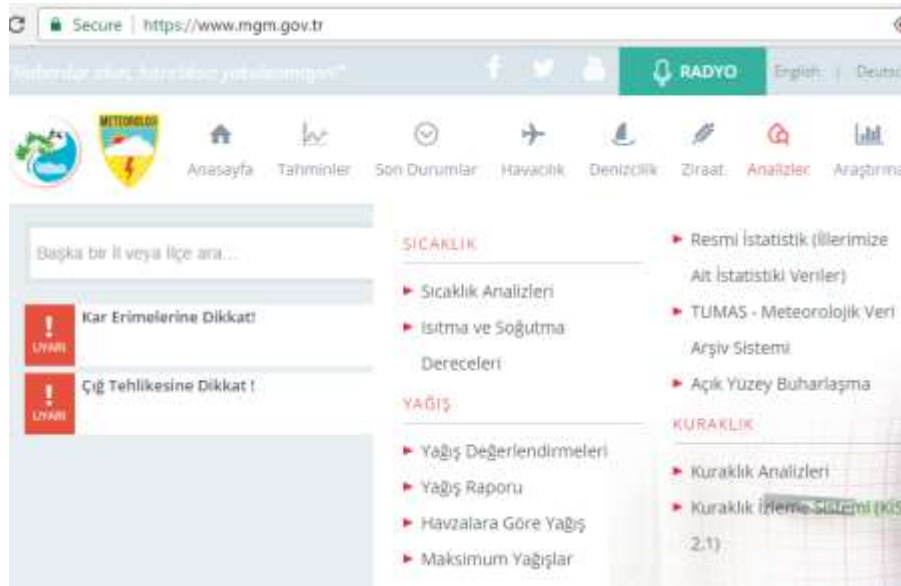

Kullanıcı kontrolü ve özgürlük

- Kullanıcılar sık sık sistem fonksiyonlarının seçiminde hata yaparlar ve bu istenmeyen durumdan çok detaya girmeden çıkmak için açıkça belirtilmiş bir “acil çıkış”a ihtiyaç duyarlar.

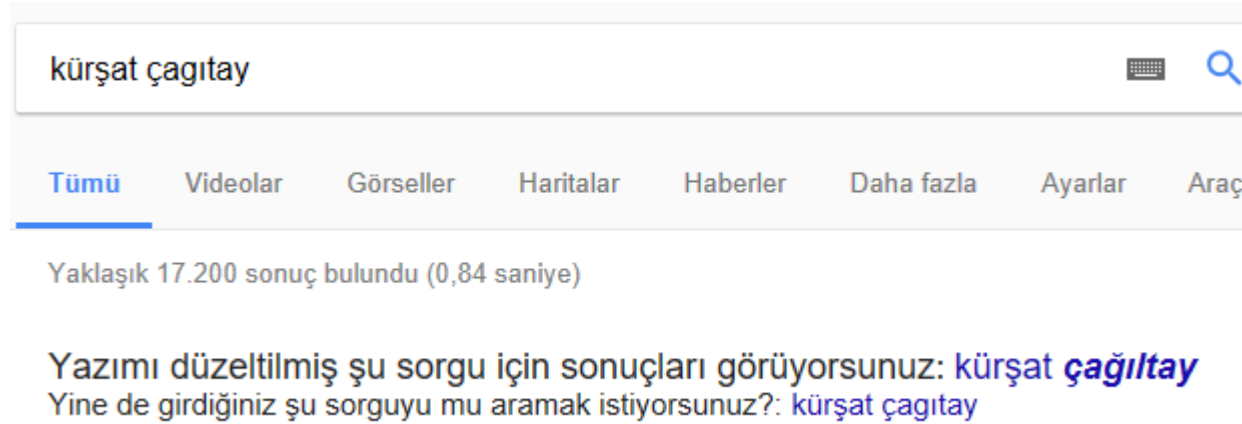

Tutarlılık ve standartlar

- Uygulama kendi içinde tutarlı olmalıdır
- Örnek: Meteoroloji Genel Müdürlüğü

Hataları önleme

- Kullanıcıların iyi bir hata mesajı ile karşılaşmasının yanı sıra, dikkatli bir tasarım ile, hatanın oluşması önlenmelidir.

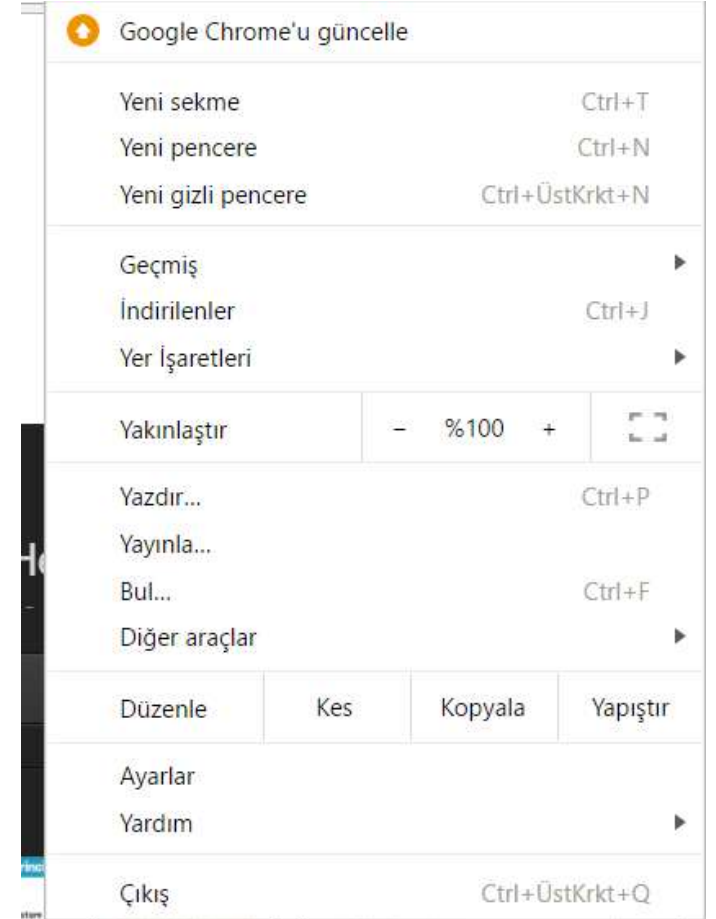

Hatırlamak yerine tanıma

- Kullanıcı diyalogun bir bölümünden diğerine olan geçişlerde, önceki kısmı hatırlamak zorunda kalmamalıdır.

Esneklik ve kullanım verimliliği

- Kullanıcılara sık kullandıkları fonksiyonları isteklerine göre ayarlayabilmeleri için imkanlar sunulmalıdır. Deneyimli kullanıcılar için etkileşimi hızlandırıcı yöntemler kullanılmalıdır

Estetik ve sade tasarım

- Alakasız ya da pek ihtiyaç duyulmayacak unsurlar
- Kural: Gereksizse kullanma!

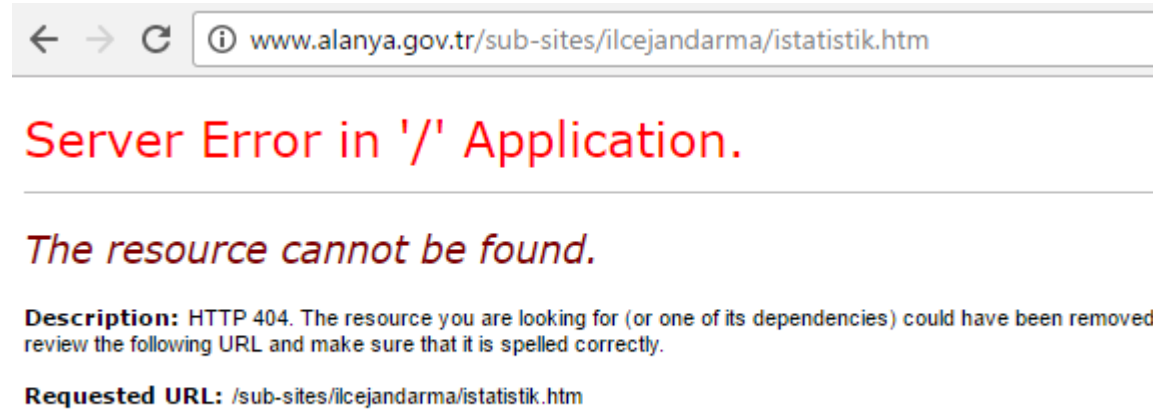

Google Search

I'm Feeling Lucky

Google.com.tr offered in: [Türkçe](#)

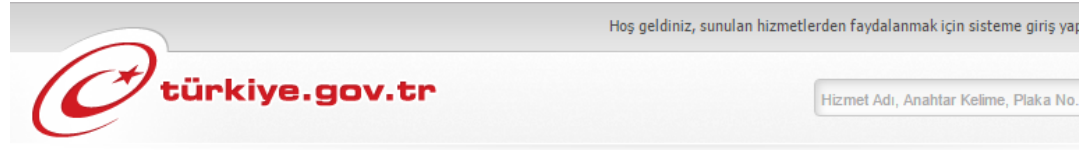

Hatadan kurtulma

- Kullanıcılara hata ile karşılaşmaları durumunda hatayı teşhis etmeleri, onarmaları ve kurtulmaları olanağı tanınmalıdır

Yardım ve dokümantasyon

- Kullanıcıya dokümantasyon ve yardım servisi sunulmalıdır

Genel Yardım

e-Devlet Kapısı, tüm kamu hizmetlerine tek bir noktadan erişim imkanı sağlayan bir internet sitesidir. Kapı'nın amacı kamu hizmetlerini vatandaşlara, işletmelere, kamu kurumlarına bilgi ve iletişim teknolojileriyle etkin ve verimli bir şekilde sunmaktır.

e-Devlet Kapısı, entegre elektronik hizmetler, kurumlar listesi ve güncel duyurular gibi kısımlardan oluşmaktadır. Bu sayede kullanıcılar ihtiyaçları doğrultusundaki bilgi ve hizmetlere kolaylıkla erişebileceklerdir.

Vatandaşlar e-Devlet Kapısını Nasıl Kullanabilirler?

Kullanıcılar www.turkiye.gov.tr adresini kullanarak e-Devlet kapısı ana sayfasına eriştikten sonra hizmetleri kullanabilirler. e-Devlet Kapısı üzerinden sunulan elektronik kamu hizmetlerinin bazıları herhangi bir kimlik doğrulama gerektirmeyen hizmetlerdir. Kişisel bilgilere erişim veya kimlik doğrulama gerektiren entegre elektronik hizmetlere erişim için şifre, e-imza veya mobil imza gibi kimlik doğrulama araçlarına ihtiyaç duyulmaktadır. Tek bir kimlik doğrulaması (şifre, e-imza, mobil imza vb.) ile pek çok entegre elektronik hizmetlere aynı adresten alabilirsiniz.

Ayrıca, e-Devlet Kapısı üzerinden alınacak bazı elektronik hizmetler için (vergi, harç vs. gibi) ödeme yapılması gerektiğinde ödeme birimi hizmeti sayesinde bu ödeme işlemleri de güvenli bir ortamda e-Devlet Kapısı üzerinden yapılabilir.

e-Devlet Kapısından Ne Tür Hizmetler Verilmektedir?

e-Devlet Kapısı üzerinden vatandaşlara verilen hizmetler genel olarak şöyle gruplandırılabilir:

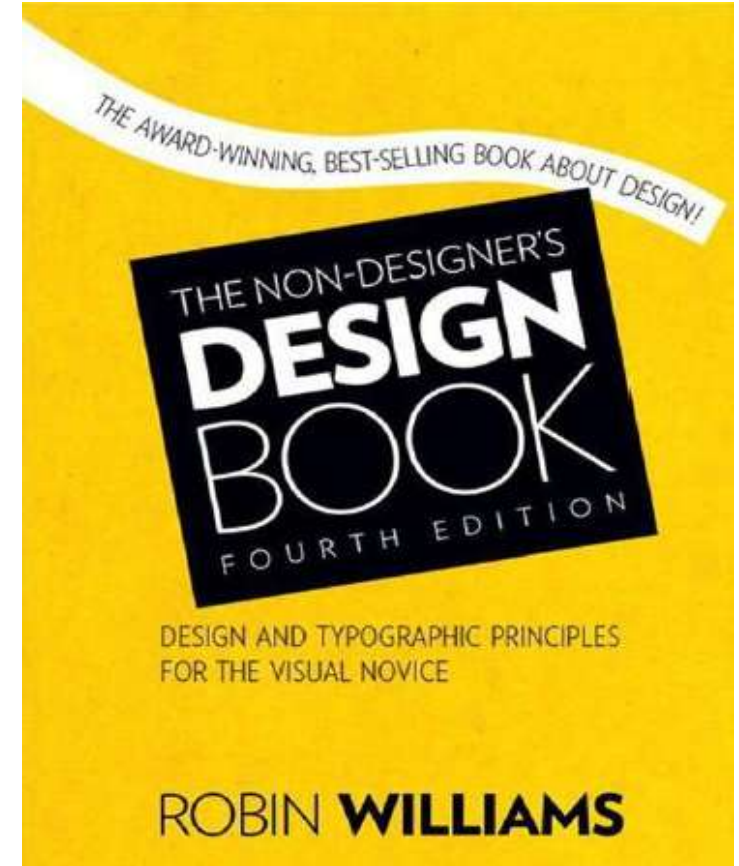

- Entegre elektronik hizmetler
- Ödeme işlemleri
- Kurum ve kuruluşlara kısa yollar
- Güncel bilgiler ve duyurular
- Kurumlardan vatandaşlara mesajlar

Bunun yanı sıra kamu kurumları arasında bilgi ve belgelerin paylaşımı e-Devlet Kapısı tarafından sunulan hizmetler ile sağlanmaktadır.

Roundworms	
In the United States, nearly 10% of all dogs have roundworms. Almost all puppies are born with them, or acquire them through their mother's milk. Roundworm eggs are passed with the feces of infected dogs, and healthy dogs can become infected through contact with soil containing these eggs. Dogs can also acquire roundworm infection by eating rodents. Infected dogs often have bloated bellies and suffer from diarrhea and vomiting. A heavy accumulation of roundworms in a puppy can lead to death.	
Heartworms	
	Heartworms are the most life-threatening of all canine parasites. These worms live in the dog's heart, where they can reach a length of 15" and live as long as 5 years. Heartworms can cause organ failure, heart disease, and death. Female heartworms release thousands of microscopic larvae into the infected dog's bloodstream. When a mosquito bites the infected dog, it swallows these tiny worms and passes them along to the next dog it bites. Any dog that is exposed to mosquitoes may be at risk. Be sure your dog is tested for heartworm infection before starting a preventive routine.
Hookworms	
Hookworms attach to the dog's intestinal lining with hook-like teeth, leaving bleeding internal wounds that are particularly dangerous to puppies. As few as 100 hookworms can cause a puppy to die of blood loss. Hookworm eggs pass through the feces of infected dogs and hatch into larvae, or worms. These larvae can be swallowed by a healthy dog or penetrate through the dog's skin. Mother dogs can give hookworm to their

Ready Set Ride: Horse-Therapy Center for Children with Special Needs

THE MISSION: to educate the community about the necessity for children with special needs to have a sanctified zone where they, along with their families, feel safe, free from judgement, and restore normalcy into their daily lives

Why Horse Therapy?

Horses are one of the few animals that have the same pelvic structures as humans allowing the children (especially those who are immobile) to feel as if they are walking or running when riding a horse

- U Active engagement of a variety of sensory activity
- U Personal interaction with volunteers, other children & equine
- U Opportunity to play like children without special needs would
- U Invaluable experience: socialization, speech & occupational development while being engaged in physical activity
- U Gain new/more advanced motor skills

JET FUEL Review

FALL 2017

Issue 14 Overview

By Sam Gennett

Managing Editor

As of December 4th, *Jet Fuel Review* is excited to release its 14th and latest issue of contemporary poetry, fiction, nonfiction and artwork. A student and volunteer-run lit journal based at Lewis University in Romeoville, IL, *JFR*'s goal is publish innovative creative work that gives voice to the diversity of writers and artists across the globe; we strive to spread the arts on a global scale by making it accessible through our online e-book.

In Issue 14, we are proud to publish the solicited work of poets Rebecca Morgan Frank, Angela Narciso-Torres, Henry Israeli, and Naoko Fujimoto along with some of her "graphic poetry" in the art section. We are thrilled with the amount of collaborative work that we received for this issue which includes braided nonfiction essays by Lee Gulyas and

Brenda Miller, poetry by Virginia Smith Rice and Christine Pacyk, and photographs by Angela Eve and Anastasios Ketsios (aka Image Collective). Alongside these writers are many more incredible poets, fiction writers, creative nonfiction writers and artists whom we are very excited to share.

This semester we are thrilled to feature the work of acclaimed artist Jamea Richmond-Edwards whose piece "Clouds Over Wings" is the cover to Issue 14.

Every spring, we include a special section in addition to our regular sections of the issue and we are pleased to announce a special section on centos in our upcoming spring issue. Indulge in Issue 14 and consider submitting a cento next semester!

In This Issue:

Launch.....	1
Popcorn Fundraiser.....	2
Blog News.....	3
Horror Movie Night.....	4
LU Idol.....	5
Reading Series.....	6
Masthead.....	7

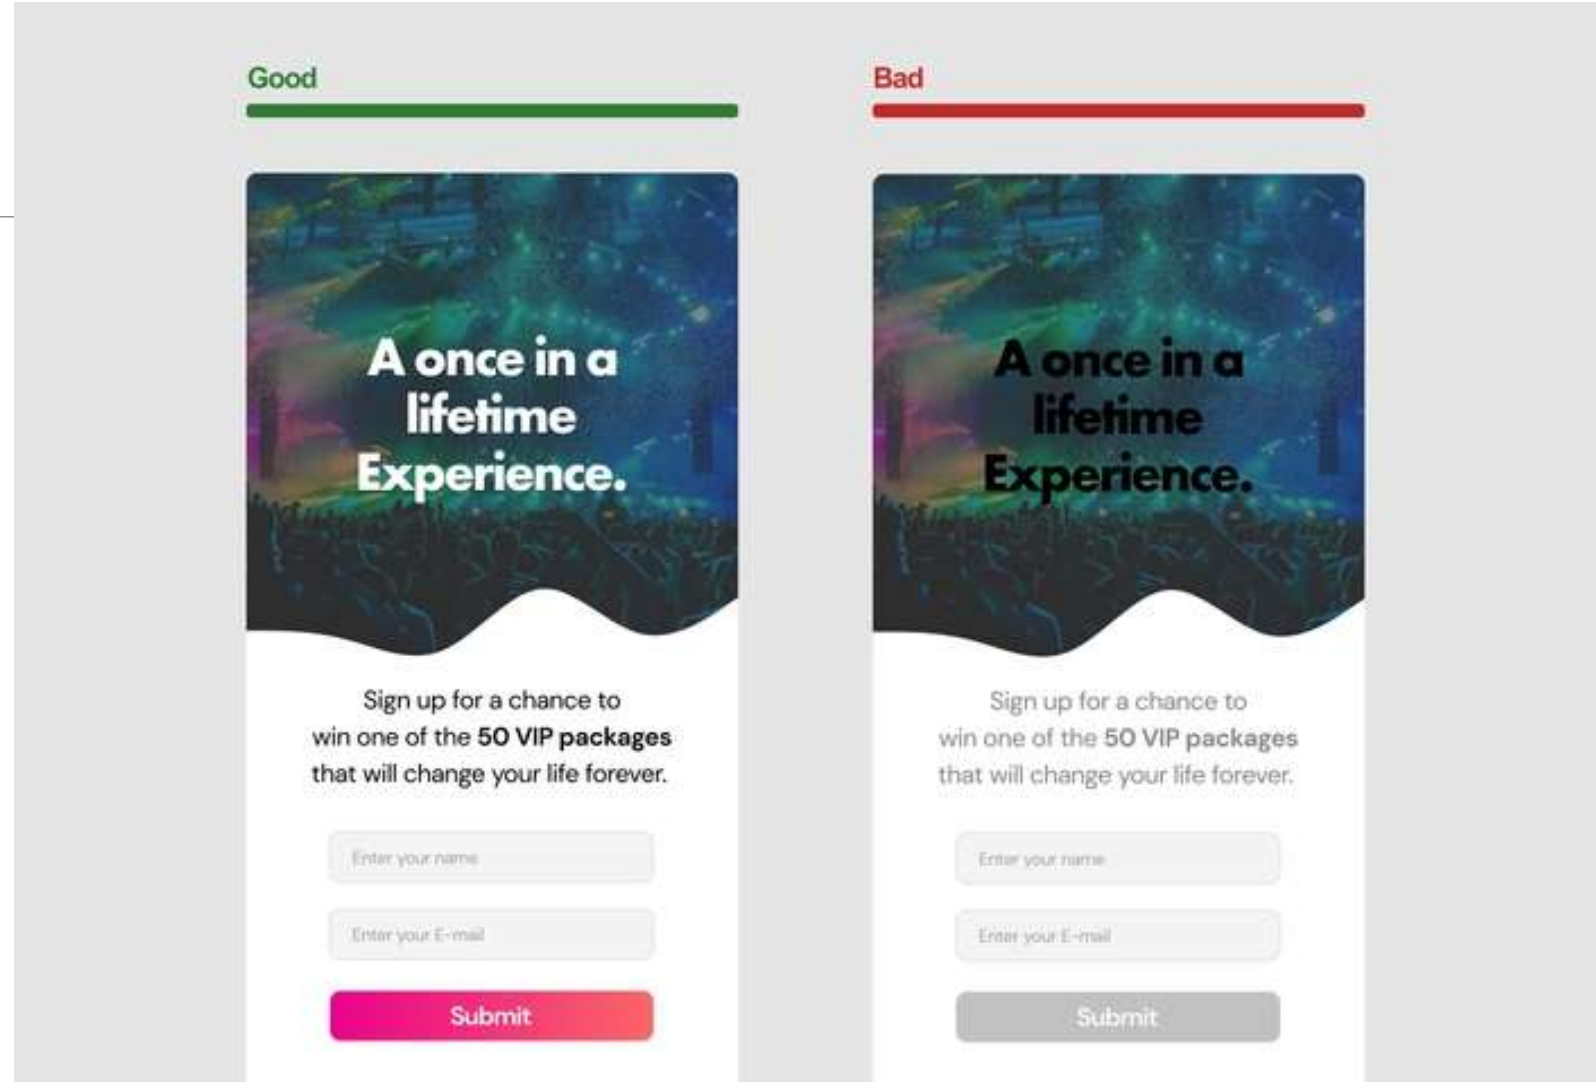

"Clouds Over Wings" by Jamea Richmond-Edwards

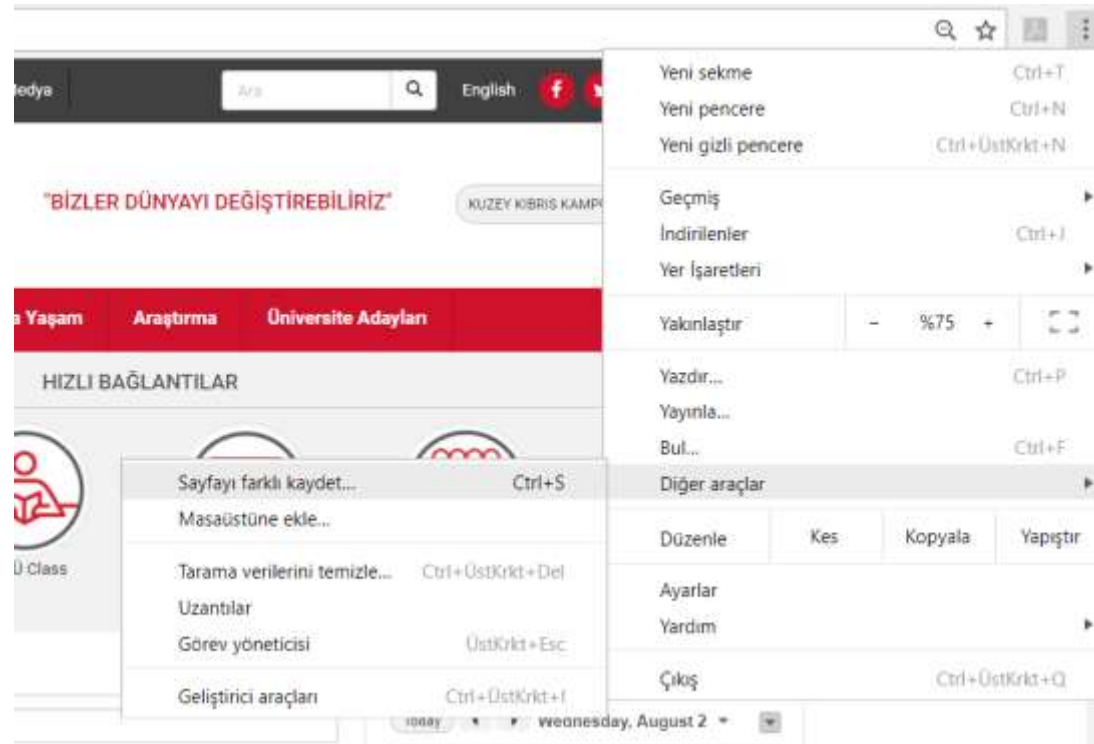

The grey and blue from the logo are used consistently throughout.

Kontrast

Dikkat çekilmek istenen
elemanlar birbirinden
farklılaştırılarak ayrılmalıdır:
Renk, Büyüklük, Arka plan,
Şekil

Aynı Yön Kuralı

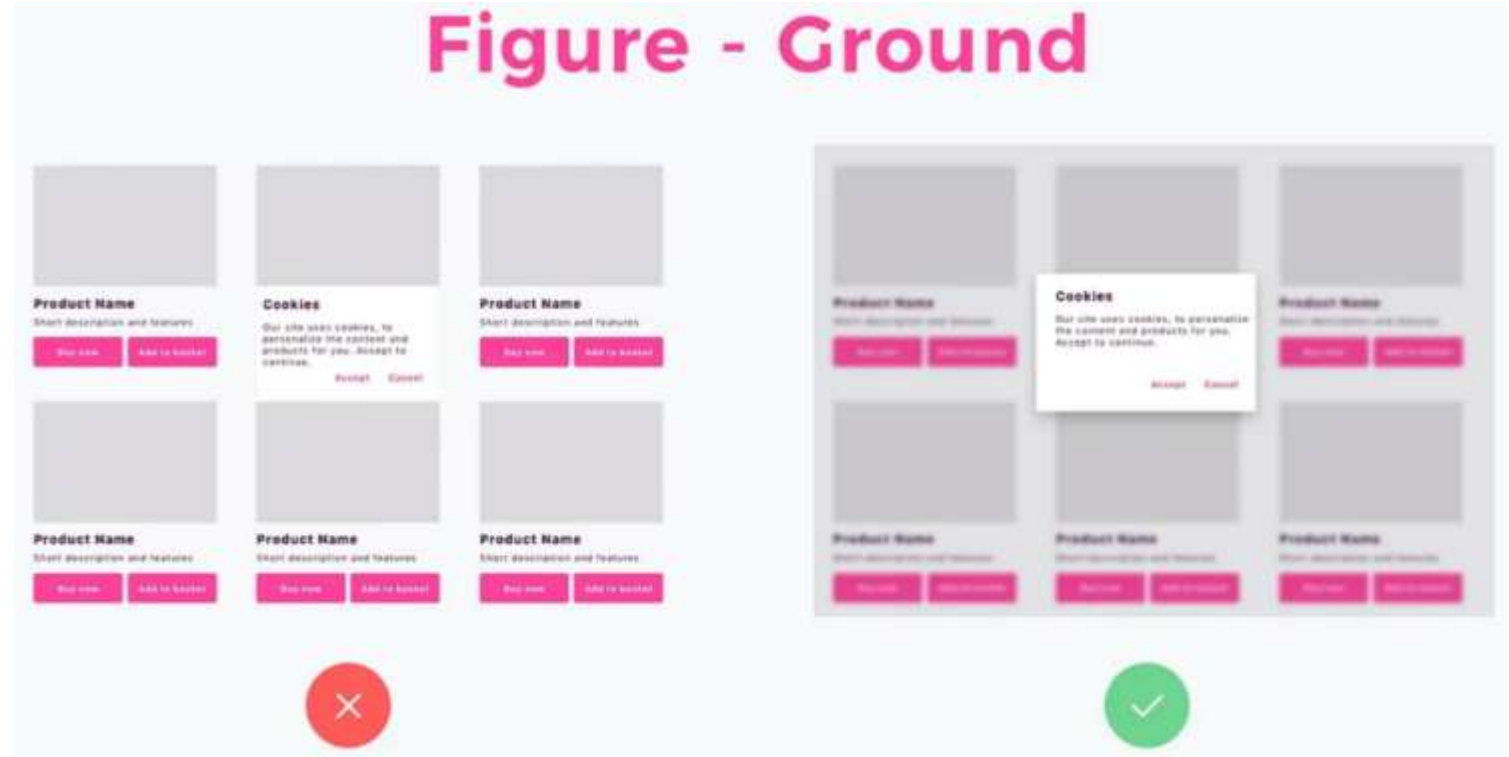

Desen – Zemin Kuralı (Law of Figure and Ground)

Görsel bir nesneye bakıldığında içsel olarak 2 farklı yapı görme eğilimi söz konusudur.

Hem görselin ön planındaki figür, hem de arka plan ayrı birer katman gibi algılanır.

Arka planda olan imajı asıl imaj olarak algılayabilir veya ön plandaki figürü önce algılayıp diğer katmanı arka plan olarak düşünebilir.

Desen – Zemin Kuralı

Görselde ana mesaj ve arka plan zemin iç içe geçmiş

Desen – Zemin Kuralı

Şimdi ana içerik ve arka plan zemin keskin bir şekilde ayrılmaktadır.
